

# AADE19 PLANNING WORKSHEET

Get more out of your AADE19 experience and improve your chances of getting employer reimbursement by planning ahead and having a firm sense of the costs involved. Also critical is demonstrating how attending relates to your professional goals and the goals of your employer/institution.

Use the expenses chart below to itemize costs associated with attending AADE19. Then use the goals chart to help identify benefits to attending that you can customize to fit your needs and the needs of your organization.

<b>Miscellaneous/Other</b>		
<b>TOTAL COST:</b>		

## AADE19 GOALS

My Goal	AADE19 will help me achieve this by:
<i>Understand cutting edge diabetes technology devices.</i>	<i>featuring hands-on DANA sessions and demos to learn how to implement technology. This will help me use DANA in the practice setting with knowledge of the latest diabetes devices.</i>
<i>Understand more about population health and value based care.</i>	<i>offering relevant population health sessions to help me understand the paper released in 2019 and steps necessary to gain expertise in this space.</i>
<i>Understand the 2019 ADA Nutrition Consensus Report and how to put the recommendations into practice.</i>	<i>presenting a 3-part session addressing the research, recommendations and practice pearls to implement.</i>

**REGISTER BEFORE APRIL 26TH TO SAVE \$100.**
